

الامتحان الفصلي الأول

الاسم:

الدرجة: ٣٠٠ ، المدة: ساعة ونصف

اللغة الإنكليزية

التاريخ: الخميس ١١ / ١ / ٢٠١٨

الثاني الثانوي العلمي (٢٠١٧ - ٢٠١٨)

I - Read the following text then do the tasks below: (52 marks)

The European coffee houses of the early 1650s were mainly for businessmen, writers, politicians and scientists. like today's websites, coffee houses were exciting places. Coffee itself was grown in Ethiopia, where people chewed the beans. From there, it spread to Arab countries, where it soon became very popular as a drink. People liked it because it had an interesting taste and gave them more energy when they felt sleepy. The first coffee house in London was opened in 1652 by Pasqua Rosee, who was from Smyrna, in Turkey. coffee was immediate success and large numbers of coffee houses opened. they became the centre of social life in London.

London coffee houses were very pleasant places, with their bookshelves, mirrors. pictures on the walls and good furniture. They were calm places where people talked politely to each other.

Answer the following questions:

1. What kind of people went to coffee houses at first?
2. Why did people enjoy drinking coffee?
3. In what way were London's coffee houses very pleasant places?

Find words in the passage which mean the following:

5. To move from one place to another.

Rewrite the following sentences to correct the information about the text:

6. There were frequent arguments and fights in London's coffee houses .

II - Read the following text then do the tasks below: (40 marks)

The history of the telephone begins at the start of human history. Man has always wanted to **communicate** from a far. People have used smoke signals. mirrors, jungle drums, carrier pigeons and semaphore to get a message from one point to another . A real telephone couldn't be invented until the electrical age began. And even then it didn't seem **desirable**. Electrical principles needed to build a telephone were known in 1831, but it wasn't until 1854 that Boruseul suggested **transmitting** speech electrically. And it wasn't until 22 years in 1876 that the idea became a reality . Before then, a telephone might have been impossible to even think of. Throughout his life, Bell was interested in the education of deaf people. This interest led him to invent the microphone Since Alexander Graham Bell's death in 1922, the telecommunication industry has undergone an amazing revolution. Today, deaf people are able to use a special display telephone to communicate.

Choose the correct answer a, b or c:

7. Alexander Graham Bell was interested in teaching and training those who are :.....
