Over 2000 people die every year in road accidents in Syria. About 30% of the victims are children. Some people believe that motorists who drive too fast in residential areas should be banned from driving to protect people's lives and make them respect the law. On the other hand, we can stop motorists from driving too fast through using speed limit signs, traffic humps and large fines. I think the government should build more bridges and tunnels and punish those who drive too fast severely.

35. Last month, my friends and I visited Apamea. It is an ancient site in Syria and it is also an area of natural beauty. When we arrived, we visited the Roman city. There were enormous columns and high walls. After that, we climbed up the hill to the citadel. The views from the top were incredible. As the sun went down over the plain, we saw the buildings change colour, from a dark red to pink and purple. It was an amazing sight. I will never forget that visit. Since then, I've dreamt to study history.
