

الاسم: الامتحان الفصلي الأول (٢٠٢٠ / ٢٠٢١)

الدرجة: 300، المدة: ساعتان اللغة الإنكليزية

التاريخ: الثالث الثانوي العلمي الدوام الصباحي

I- Read the following text then do the tasks below:

The Eden Project, which opened in the year 2000, is a living plant museum in the countryside in the south-west of England. It is a very popular attraction and millions of visitors come every year to see plants from all over the world growing in this special environment. Some plants grow outside, but many are in specially-built domes, called 'biomes', where the temperature and humidity are carefully controlled. The biomes are like giant greenhouses and one, the Humid Tropics biome, is the largest greenhouse in the world. It is over 55m high and 200m long and contains many thousands of exotic plants not found in England. One of the purposes of the project is to show how dependent human beings are on plants and to educate people on the importance of preserving our natural environment. Aside from the plant life, the Eden Project has fascinating interactive exhibits for people of all ages. Many of the visitors are groups of school children and the Eden Project combines educational value with scientific interest and a huge variety of spectacular plant life.

***Answer the following questions: (18 marks)**

1. What is special about the Eden Project?
2. Who visits the Eden Project? Why?
3. What educational uses could the Eden Project serve?

***Find words in the text which mean the following: (10 marks)**

4. unusual, foreign.
5. liked by many people.

***Rewrite these sentences about the text to correct the information: (12 marks)**

6. The Eden Project is a historical museum in the north-west of England.
7. The biomes are small compared with green houses.

II- Read the following text then do the tasks below:

For a human being to go into space, **survive** and conduct important research, there needs to be careful organisation and planning. Daily life inside an **airtight** space or space station requires much more than just oxygen and heat. People require the correct atmosphere, a mechanism for removing the carbon dioxide that living things produce, and a reliable means of day-to-day living in microgravity (ways of eating, drinking and washing, for example). For humans to survive in space for months at a time, all these things need to be very carefully planned. If, for example, the carbon dioxide extractor doesn't work, or the system for maintaining the correct atmosphere breaks down, then they will die. All the correct materials, food, oxygen cylinders and fuels have to be prepared and supplied correctly. All the machinery and seals that keep the air in, the cabin pressure correct and that protect the astronauts from the freezing cold **vacuum** of space have to work perfectly every second of every minute.

***Choose the correct answer: (12 marks)**

8. The seals keep in the space shuttle

- a. air
- b. means
- c. materials

9. If the carbon dioxide extractor doesn't work, astronauts on board will

- a. float
- b. lose their lives
- c. break down

***Match the underlined words from the text to the definitions below: (12 marks)**

10. not allowing air to escape or pass through

11. a space that is completely empty of all matter

***Complete the following sentences with information from the text: (12 marks)**

12. Living in the space shuttle needs more

13. The seals and the correct pressure protect

III- Complete the following paragraph by filling in the gaps: (18 marks)

Although we use wood pulp from trees 14..... make new paper, it 15..... not true that recycling paper saves trees. Trees are a commercially grown long-term crop, and when they are cut down, new ones are planted. Also, papermakers use the parts of trees 16..... cannot be used in other industries.

IV- Fill in the spaces with words from the list.

Use each word once only: (24 marks)

careful - kinds - person - safe - carried

Doctors heard of Pasteur's work. They began to be more 17..... They stopped putting people with different 18..... of illnesses in the same room. Germs could be 19..... , they thought, from one 20..... to another. They also took more time to clean their hands, the beds and the rooms, to kill germs before they spread.

V- Complete the following dialogue by writing suitable questions or answers. Write at least

three words for each question: (32 marks)

21. A-?
B- Desertification usually occurs in dry areas.
22. A-?
B- One billion people suffer from the effects of desertification.
23. A-?
B- The activities of human beings are the real cause.
24. A- What should we do to stop desertification?
B-.....

VI- Rewrite the following sentences as required in brackets: (32 marks)

25. I am not old enough to go to university.
(use I wish)
26. People have prevented elephants from migrating.
(change into passive)
27. In some countries, law protects the nests of rare birds.
(change into passive)
28. People drive too fast in the city centre.
(use I wish)

VII- Complete the following sentences using clauses: (14 marks)

29. If I were a millionaire
30. She didn't go to school yesterday because

VIII- Choose the correct words in brackets: (18 marks)

31. I (**may , must**) be coming next week. If I come, I'll let you know.
32. I've never been keen (**with , on**) museum.
33. It has been a (**disastrous , disaster**) year for the tea industry.

IX- Correct the verbs in brackets: (18 marks)
